MONDAY

- In Monday we introduced ourselves, did some presentations about our School, the city of Aranjuez and Herakleio . Then we did Arduino experiments with our teacher Leopoldo.
- At the afternoon we visited the old part of the city centre in Heakleio.

TUESDAY

- First we visited the Arcadi Monastery, in Rethymno, then we went to the gorge of Sant Anthony's and we went to a restaurant to eat all together, finally we visited the old city of Rethymno.

WEDNESDAY

- In Wednesday we came first to school to do some experiments related with microscopes. After that, we went to the museum of technology of Heraklion. Finally the teachers gave us free time for going out with our friends

THURSDAY

- In Thursday we went to the ruins of Knossos and we did a guide visit, after this, we went to Fodele where we did some experiments related to water with a microscope and we also ate there.

FRIDAY

In this day we came to school and we worked again with Arduino platform, but now we introduced a new topic that was sending this information to our phones through bluetooth.

Then we wrote our opinions on the trip on a platform called Etwinning.
