

# Πουπουλένια σύννεφα ( Η αλφαβήτα )

Γράφω στα καλάθια τα γράμματα της Αλφαβήτας με τη σειρά. Έπειτα, γράφω κάτω από κάθε καλάθι μια λέξη που να ξεκινάει με το γράμμα που συμπλήρωσα.

|                                                                                         |                                                                                           |                                                                                       |
|-----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| <br>Aa |          |    |
|      | <br>Ee |  |
|      |        |  |
